## looking for a materials testing laboratory?

- ✓ purpose built lab with state of the art, research grade machinery
- ✓ lab based or in-situ testing by fully qualified professionals
- ✓ testing of fasteners to Construction Products Regulations (European Regulation No. 305/2011)
- ✓ catering to common British, European or International Standards (e.g. BS, EN, ISO, DIN)
- ✓ testing component compliance with European RoHS Directive (The Restriction of Hazardous Substances Directive 2002/95/EC)
- ✓ custom testing to client's own standards
- ✓ range of tests and analyses including:
  - tensile, compressive, shear, bending and flexure testing
  - compressive strength testing (lab based or in-situ)
  - torque testing
  - hardness testing (Vickers, Rockwell and Brinell scales)
  - chemical composition and analysis (lab based or in-situ)
  - drill speed (and/or tapping speed) testing
