

FLOORING SCREW NEWS

Evolution Bring PAM Flooring System to UK

Evolution Fasteners (UK) Ltd have just launched the PAM Professional Autofeed Screw System into the UK in partnership with PAM Fastening, Technology Inc. This reliable, easy to use, versatile system is only available in the UK from Evolution and is specifically designed for fixing sheet flooring materials to timber.

The PAM system available from Evolution includes:

- collated flooring screws (available in 51mm, 64mm and 75mm lengths)
- 110v collated flooring tool (PAM adaptor + Makita FS2500 screwdriver)

The key features of the PAM collated flooring screws and how they help to increase productivity and improve quality of the finished job are outlined below:

Unique PAMDrive® modified torx drive profile ensures low bit wear and eliminates wobble.

Manufactured in steel with yellow zinc passivated coating.

Collation consistency eliminates jamming.

Sharp single thread design specifically for chipboard flooring.

Split threadform design prevents 'jacking' of the material being fixed down.

Introductory Offer

As an introductory offer, Evolution are giving a free 110v collated flooring tool with every purchase of 200k or more PAM Flooring Screws (200k made up of any mix of sizes). Promotional period to Dec 30 2011.
